EDITOR'S LETTER

Shadow & Gold

November arrives with two faces. On one side, the gold: the lights, the dresses, the front rows, the nights when you walk in and the room changes. On the other, the shadow: the quiet mornings, the bare face in the mirror, the days when you have to choose yourself again from zero.

I have lived both this season — sometimes in the same 24 hours. And I have learned that the Empress is not the woman who only shines. She is the woman who knows her darkness by name and still decides to rule.

This month the sky agrees. Mercury and Venus both turn direct on the 14th, the New Moon in Scorpio asks us to bury what is finished, and the Fool — our card of the month — invites us to jump before 2027 even knocks.

So take what serves you from these pages. Light a candle. Pull a card. Be gentle with the woman in the mirror. Gold and shadow — both are yours.

With love, Mia Karolys · The Empress of Tarot & Magic

NOVEMBER 2026 · KEY DATES (GREECE TIME)

THE COSMIC SHIFT

9 NOV — **New Moon in Scorpio**

The deepest reset of the year. Bury, release, transform. Perfect for the ritual on page 8.

11 NOV — **The 11:11 portal**

Doors open. Write your wish at 11:11 — see page 5.

14 NOV — **Mercury & Venus turn direct**

Mercury in Scorpio and Venus in Libra both station direct on the same day. Delayed messages, exes and love decisions start moving forward again.

22 NOV — **Sun enters Sagittarius**

Optimism returns. Plans, travel, faith and the first sparks of 2027.

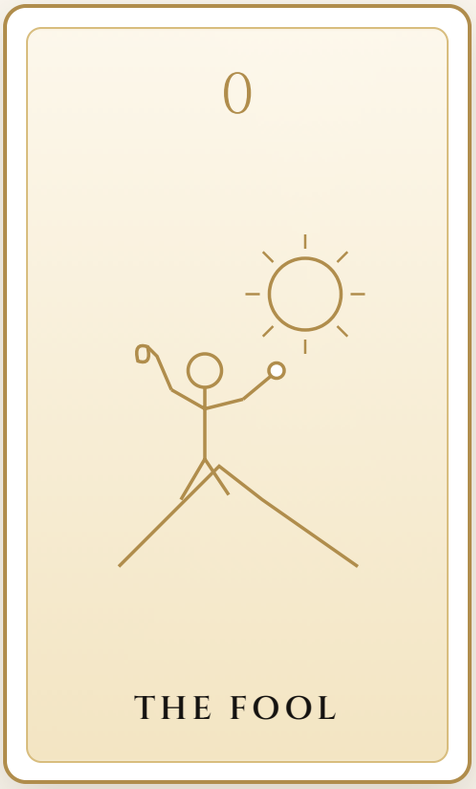

24 NOV — **Full Moon in Gemini**

Truth comes out in words. Conversations, revelations and the end of a mental loop.

Mars and Jupiter travel together through Leo all month: courage, visibility and generosity. Shine — but share the stage.

CARD OF THE MONTH

THE FOOL

I shuffled the whole deck for the collective, and the first card out was zero — the Fool. The beginning before the beginning.

The Fool walks to the edge of the cliff with a white rose in her hand and a small bag on her shoulder. She doesn't know everything. She doesn't need to. She trusts the next step.

In November this is your permission slip: start before you feel ready. Book the class, send the message, launch the project, buy the ticket. 2027 rewards the women who jumped in 2026.

Ask yourself: what would I do this month if I wasn't afraid of looking foolish?

CODES OF THE COSMOS · 11:11

11:11

On 11 November the portal opens. 11:11 is the angels' reminder that your thoughts are seeds — whatever you think at 11:11 is being planted. Write one wish in the present tense ("I am…", "I have…") at 11:11 on 11/11, fold it twice, and keep it under your pillow until the Full Moon on the 24th.

ANGELIC MESSAGES

THE ANGELS OF NOVEMBER

November is the month when the veil is still thin after Samhain and the nights grow long. The angels come closer in the dark — not to take the shadow away, but to hold a candle inside it. These are the four archangels I am calling on this month, and how you can call them too.

Archangel Michael

PROTECTION · COURAGE

Scorpio season stirs up old enemies and old fears. Call Michael when you need a shield — before a hard conversation, a court date, or walking into a room that doesn't want you there.

"Michael, stand at my right side. Cut what is not mine."

Archangel Jophiel

BEAUTY · SELF-LOVE

Jophiel means "beauty of God". She is the angel of the mirror. Call her on the days you cannot love your reflection — she reminds you that beauty is not a look, it is a light.

"Jophiel, let me see myself the way God sees me."

Archangel Gabriel

MESSAGES · TRUTH

With Mercury turning direct on the 14th and the Full Moon in Gemini on the 24th, Gabriel brings the words you have been waiting for. Call him before you write the text, sign the paper, or speak your truth.

"Gabriel, put the right words in my mouth."

Archangel Raphael

HEALING · REST

Raphael's green light heals body and heart. Call him at night, when the thoughts won't stop — and remember that rest is also a prayer.

"Raphael, heal what I cannot reach."

ANGEL NUMBERS TO WATCH THIS MONTH

11:11
A door opens — make a wish.

222
You are not alone; partnerships align.

444
Your angels are building a wall around you.

777
You are on the right path — keep going.

> *"I kept you away because you were transforming into something I didn't want to be. I thought the best way was to make you disappear. But now I realise you are a part of me, and I need you back."*

FROM MY BOOK · AN EXCLUSIVE EXCERPT

Andre, the Angel

Before Mia, before Bella, before the Empress, there was Andre. Andre was me, before I became Mia. Even today, just reading his name puts a smile on my face.

Andre was an angel. He didn't believe in labels: male or female, bad or good. He thought everything was beautiful, that life was full of beauty and happiness, with no darkness at all.

Andre discovered the darkness at 13, 14, 15, when his body started changing. He was losing his angelic face and becoming something completely different. I didn't recognise my beautiful face anymore. Hair started growing on my face, and I said: this is not what I want. What can I do to stop it? That's when I understood that men have beards and women don't. And I thought: maybe I want to be a woman.

I kept it a secret for a while. I tried everything. Until one day I said: I'm done hiding. That was the beginning of my story at 18, when I decided to be completely myself.

If Andre, that little angel, could see me today, I think he would tell me: "You should never have kept me away."

FROM MY BOOK · AN EXCLUSIVE EXCERPT

Then the Empress Came

Before the Empress, there was Bella Montiel. Bella was like the Empress, 24/7: makeup and hair always done, always in the street, always in the clubs. But Bella never had feelings. She was so frivolous, so closed, so protected. She was only trying to protect me. But I wanted to feel. I wanted to live again, and Bella would not allow it. So I had to put her away.

After that, I felt destroyed. I felt alone. I said to God: "What else can I do? Show me a path. Give me a sign." Then I had a dream with the Death card, and it told me: "Protect yourself." That's when the witch in me came out, and tarot came into my life.

And then the Empress came, and she told me:

"You don't need to be all cold or all hot. You have to be the balance. You are sensuality, beauty and vulnerability. You are everything, and you possess it all."

TO THE YOUNG TRANS GIRL READING THIS

There are no enemies, and there are no bad eyes out there. Everything is inside us. Be strong, be kind, and most of all, have compassion for yourself. You are beautiful just the way you are. The world can be a mess, but if you look at yourself with love and compassion, you will be happy.

RITUAL OF THE MONTH

The Scorpio New Moon Key

Sunday 9 November · from the New Moon (09:02 Greece) until midnight

YOU WILL NEED

- 1 black candle (release) and 1 gold candle (new power)
- An old key — any key you no longer use
- A small bowl of water with sea salt
- Paper, pen, and a red thread

THE RITUAL

1. Cleanse your space with smoke or your protection mist. Light the black candle first.
2. On the paper, write what you are locking away forever: a person, a habit, a fear. Be honest — Scorpio knows anyway.
3. Hold the key over the black candle (safely) and say: "This door is closed. What was mine returns to me; what was never mine, leaves."
4. Drop the key into the salt water. Tear the paper and let the black candle finish.
5. Light the gold candle. Tie the red thread around your left wrist and say: "I open only the doors that honour me."
6. Keep the thread until the Full Moon on the 24th, then burn it with gratitude.

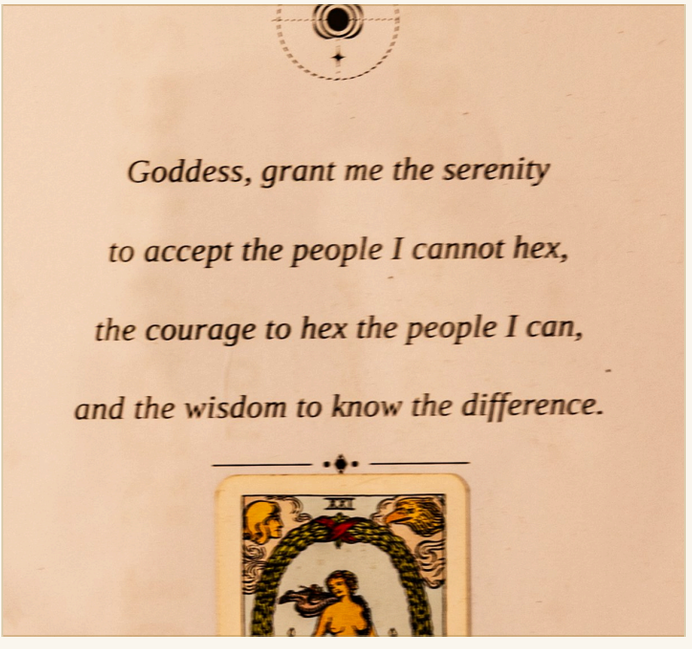

Sacred Shield Mist

Protection & hex-breaking aura spray. Mist it around your body before you leave the house, over your altar before a reading, or in the corners of a room after a heavy conversation. Three sprays, one intention: nothing enters that is not invited.
